

### New Year, New Truck Combination.

Divall's have added to it's fleet a new 26mt triple truck.

This new concept is some existing equipment revamped and reconfigured - With a 48 tonne payload, the front 2 trailers are side tipping the 3<sup>rd</sup> rear tipping. Operating under performance based standards, on specific routes this triple will provide more productivity opportunities for Divall's and clients.

Our eager 26mt triple truck operator Adam Craig.
