

NEWS UPDATE OCTOBER 2018

Hit the pavement this Summer!

After completing Stage 1 of the Wollondilly walking track in 2016, Divall's secured the contract for Stage 2.

Stage 2 consists of a further 1.5 kilometres of walking track requiring a whopping 300m³ of concrete. Stage 2 also involves the construction of an 85m cantilevered and elevated bridge.

This stage of the walking track connects Kenmore Street to Tarlo Street and follows the river through Tully Park Golf Course and then joins the stage 1 path taking the total constructed path to over 4kms in length.

We are expecting all works to be complete in the first few months of 2019 with further extensions to the walkway under consideration.

NB: We are in the process of upgrading our accounting software. This has resulted in some changes in our statement and invoices. This is of no consequence to our customers and we hope to have this issue rectified for the October billing period. If you would like to receive your account by email, please contact our office.
