

NEWS UPDATE FEBRUARY 2020

"POWERING UP TO STRIP DOWN"

Divall's are excited to announce that we have further strengthened our relationship with Holcim, securing a 3-year contract at the Lynwood Quarry in Marulan. The project involves stripping overburden, which will see our team of 11, move approx. 2.5 million tonnes per annum.

In order to complete these works, we have expanded our fleet with the addition of:

- 3x 100 tonne Dump Trucks,
- 2x 60 tonne Dump Trucks, and
- 2x Excavators, 85 tonne and 125 tonne machines.

These new additions are the largest assets in our earthmoving fleet, with the trucks carrying 100 tonnes per load, and the 125 tonne excavator facilitating approx. 15 tonnes of material per bucket load.

We highly value our partnership with Holcim and appreciate their focus on employing local businesses.
