

## NEWS UPDATE MARCH 2020

### *Next Generation D6XE*

After 23 years as our long-term grader operator, Andy Bush has taken possession of our “Next Generation D6EX Electric Drive Bulldozer.”

This new machine features an all new design including push arms, frames and grade control, along with factory fitted Trimble Earthworks GPS systems.

Andy’s new Bulldozer offers increased agility, with 35% better fuel efficiency. It’s consistent power to the ground; continuous push and greater movability equates to faster cycle times, and reduction of time to complete your job.
