

COMPLETION OF TARALGA WIND FARM !

In July 2013, Divall's Earthmoving & Bulk Haulage were successful in obtaining a contract from Downer EDI to undertake civil works at the Taralga Wind Farm to house 52 wind turbines.

Works commenced in December 2013 and included:

- Establishment of site entries and access roads to wind turbines
- Placement of culverts and drainage
- On-site implementation of erosion and sediment control measures
- Earthworks for compound area
- Earthworks for hardstand areas for cranes
- Earthworks for wind turbine foundations
- Foundation concrete supply

Over the duration of the job, Divall's were able to employ local residents of Taralga and its surrounds to help complete the job, some of whom are now full time employees.

Works at Taralga Wind Farm were completed in July, 2015. We would like to thank all our employees for their efforts in completing such a large scale project !
