REDEVELOPMENT OF THE GOULBURN WAR MEMORIAL

Over the recent months, Goulburn Mulwaree Council has been seeking the services of a suitably qualified and experienced Company to construct an upgrade to the Goulburn War Memorial Carpark and Forecourt.

After submitting a Tender to comply with all of the specific requirements, Divall's Earthmoving & Bulk Haulage are excited to announce that they were successful in obtaining this contract with their Tender Submission.

Due the nature of this job, it is imperative that the Special Conditions of the Contract are met to the highest of standards. These include but are not limited to:

- **Aboriginal Significance** – The Site of Works is significant to the Aboriginal Community. Divall's are to provide written confirmation that they have consulted with the Pejar Local Aboriginal Land Council prior to any disturbance of the site.

- **Access to the Museum During Construction** – The Museum will remain in operation during normal trading hours throughout construction. Divall's will be required to submit a Traffic and Pedestrian Management plan showing the proposed movements throughout construction.
- **Notification of Work** – All Owners and/or Occupiers of properties adjoining any part of the works will be provided with a written notice of work commencement at least 48 hours in advance.

Divall's Earthmoving & Bulk Haulage Management and Staff look forward to carrying out this significant project in order to improve and maintain this Historical Site.
