### DIVALL'S TEAM UP WITH HOLCIM AGGREGATES

For the past 30 years, Divall's Earthmoving & Bulk Haulage have had a long standing and prosperous relationship working with Holcim Aggregates. As we settle in to the New Year, we are excited to announce our relationship with Holcim has evolved.

Divall's have recently purchased 3 New Kenworth 409 SAR Trucks, bearing the Holcim colours and logos, which will be carrying Holcim deliveries. These deliveries are run on both a day and afternoon shift, which in turn has provided new employment opportunities for locals with three new truck drivers required.

Holcim (Australia) Pty Ltd, is a multi-national Company, operating over 300 locations in Australia alone. We appreciate the support for local businesses and generating opportunities for the local community with this contract. We look forward to working together for many years to come.
