## JULY 2016

### NEW KENWORTH T409 SAR

Divall's are excited and proud to announce that we have recently taken delivery of a new PBS Kenworth T409 SAR to add to our fleet but this one was a little more special than some other recent purchases. This was the 50th Kenworth purchased by Andy & Michael Divall from Canberra Trucks.

Monitored under the RMS strict Intelligent Access Program (IAP), and operated on Higher Mass Limit (HML) and PBS network routes.

Benefits include;

- Decrease in fuel consumption (per tonne)
- Increase in carrying capacity
- Increased productivity
- Minimise number of trips

You may see this truck out on the road which has been specially customised to celebrate this milestone with some 50th badging along with being numbered 50 in the fleet numbers and displaying DIV050 number plates.

Contact Troy or Kerry on (02) 4829 8200 for all you bulk haulage needs.
