

FIRST AID TRAINING FOR EMPLOYEES !

At Dival's Earthmoving, we are committed to ensuring that all employees who are assigned responsibility in relation to Management, Mass Management, Driver Fatigue, Maintenance and Civil Construction and Plant Hire, Administration and all other work operations are fully trained in the health and safety aspects of their position to allow them to carry out their duties in a safe manner.

All employees are trained internally or externally based on the Company's needs or on the individual needs of the employee to meet legislative requirements applicable to the duties they perform.

To meet these requirements and ensure the safety of our employees, Dival's are currently putting our entire workforce through First Aid Training Courses. Some of the tasks that are completed to gain this certification include:

- Performing 2 minutes of uninterrupted single rescuer CPR on an adult manikin
- Manage an unconscious breathing casualty
- Respond to 2 simulated first aid scenarios
- Demonstrate safe manual handling techniques
- Apply first aid procedures to allergic reactions, bleeding control, fractures/sprains, shock etc.

Dival's would like to thank our employees for their professionalism and hard work when undertaking their various courses ensuring a safe work environment for everyone.
